Mathematical Sciences  
**NEXT EINSTEIN INITIATIVE**

The Secretariat  
District Gasabo, Secteur Kacyiru  
Cellule Kamatamu Rue KG590 ST  
Kigali, Rwanda

## We're transforming Africa through innovative scientific training, technical advances and breakthrough discoveries!

Established in 2003 in Cape Town, South Africa, the African Institute for Mathematical Sciences (AIMS) is a Pan-African network of centres of excellence offering postgraduate training, research, and public engagement for the advancement of Science, Technology, Engineering and Mathematics (STEM) in Africa. Building on the success of its first Centre in South Africa, AIMS launched the Next Einstein Initiative (NEI) in 2008 to scale up and roll out the AIMS model across the continent. Five additional centres were established in Senegal (2011), Ghana (2012), Cameroon (2013), Tanzania (2014), and Rwanda (2016). Its global secretariat is situated in Kigali, Rwanda and it has global offices in United Kingdom, Germany and Canada.

AIMS vision is to lead the transformation of Africa through innovative scientific training, technical advances and breakthrough discoveries which benefit the whole of society and its mission is to enable Africa's brightest students to flourish as independent thinkers, problem solvers and innovators capable of propelling Africa's future scientific, educational and economic self-sufficiency.

Collectively, AIMS centres provide an intensive and broad education to over 275 African students each year and prepares them for leadership careers in academia, government and industry. The AIMS educational program relies on top international lecturers who teach in a 24-hour learning environment.

If you bring a collaborative spirit with a passion to effect change, consider this opportunity as the...

## Director, Communications & Public Engagement

Based from the AIMS-NEI Secretariat, and reporting to the President & CEO, the Director, Communications & Public Engagement, you will be responsible to create, plan and implement an effective communications strategy that builds and strengthens brand awareness, leveraging a variety of traditional and non-traditional communications mediums to actively engage existing and new stakeholders.

As a dynamic and multi-talented communications professional, you will champion and be an ambassador to tell the AIMS story and to capture the right levels of profile, partnerships and recognition. You have a demonstrated ability to interpret, develop and implement thoughtfully constructed strategies to engage a variety of audiences both internal and external to the organization and to contribute to its continued growth and advancement of goals and objectives – ultimately to cultivate the Next Einstein – all while giving leadership to and managing a team of up to 8 direct and indirect team members.

You recognize the value of a strong media and social presence and you are comfortably at ease striking, building and nurturing key relationships that cross multiple geographic, cultural and messaging mechanisms to achieve impact and reach. You are known for your creativity and your ability to influence desired stakeholder behaviors by effectively articulating your thoughts verbally, in writing and through visual means.

You are no stranger to the realities of a decentralized service delivery model and have the ability to establish and implement a variety of operational and administrative protocols, practices and systems to support and manage all aspects associated with a seamless communications function.
